

CONTENTS Volume 59 1991

Volume 59 No. 1

Holtz C., Kaspari H. & Klemme H.-H.: Production and properties of xylanases from thermophilic actinomycetes	1
Bode R. & Birnbaum D.: Regulation of chorismate mutase activity of various yeast species by aromatic amino acids	9
Montilla R., Williams R.P., Lorén J.G. & Viñas M.: Lipopolysaccharide is the receptor for kappa phage in <i>Serratia marcescens</i>	15
Stewart G.J. & Sinigalliano C.D.: Exchange of chromosomal markers by natural transformation between the soil isolate, <i>Pseudomonas stutzeri</i> JM300, and the marine isolate, <i>Pseudomonas stutzeri</i> strain ZoBell	19
Tease B., Jürgens U.J., Golecki J.R., Heinrich U.-R., Rippka R. & Weckesser J.: Fine-structural and chemical analyses on inner and outer sheath of the cyanobacterium <i>Gloeothecace</i> sp. PCC 6909	27
Metwally M., el Sayed M., Osman M., Hanegraaf P.P.F., Stouthamer A.H. & van Verseveld H.W.: Bioenergetic consequences of glucoamylase production in carbon-limited chemostat cultures of <i>Aspergillus niger</i>	35
Moore R.T. & Flinn A.M.: Ubiquinone and urease distribution in <i>Taphrina</i> and <i>Symbiotaphrina</i>	45
Verduyn C., Stouthamer A.H., Scheffers W.A. & van Dijken J.: A theoretical evaluation of growth yields of yeasts	49

Volume 59 No. 2

Unden G. & Trageser M.: Oxygen regulated gene expression in <i>Escherichia coli</i> : Control of anaerobic respiration by the FNR protein	65
Van der Walt J.P., Wingfield M.J., Smith M.Th. & Batenburg-van der Vugte W.H.: Septal micropores in <i>Zygozyma</i> and their taxonomic significance	77
Boekhout T., Fonseca A. & Batenburg-van der Vugte W.H.: <i>Bulleromyces</i> genus novum (Tremellales), a teleomorph for <i>Bullera alba</i> , and the occurrence of mating in <i>Bullera variabilis</i>	81
Sugiyama J., Tokuoka K., Suh S.-O., Hirata A. & Komagata K.: <i>Sympodiomyopsis</i> : a new yeast-like anamorph genus with basidiomycetous nature from orchid nectar	95
Nowak D. & Międzobrodzki J.: Serine proteinase from <i>Staphylococcus aureus</i> enhances elastin degradation by elastases in the presence of human α -1-proteinase inhibitor	109
Vosman B. & Hellingwerf K.J.: Molecular cloning and functional characterization of a <i>recA</i> analog from <i>Pseudomonas stutzeri</i> and construction of a <i>P. stutzeri</i> <i>recA</i> mutant	115
Hinzelin F., Kurtzman C.P. & Smith M.Th.: <i>Williopsis Salicorniae</i> Sp. Nov.	125
Middelhoven W.J., de Jong I.M. & de Winter M.: <i>Arxula adeninivorans</i> , a yeast assimilating many nitrogenous and aromatic compounds	129

Volume 59 No. 3

Polonelli L., Conti S., Campani L., Gerloni M., Morace G. & Chezzi C.: Differential toxinogenesis in the genus <i>Pichia</i> detected by an anti-yeast killer toxin monoclonal antibody	139
Janssen P.H., Parker L.E. & Morgan H.W.: Filament formation in <i>Thermus</i> species in the presence of some D-amino acids or glycine	147
Mateos P. & Domínguez A.: Ultrastructure and cell wall composition in cell division cycle mutants of <i>Schizosaccharomyces pombe</i> deficient in septum formation	155
Gangwar M., Khan Z.U., Gaur S.N. & Randhawa H.S.: Occurrence and significance of precipitating antibodies against thermophilic actinomycetes in the sera of dairy herd workers, Nangali, Delhi	167
Fonseca A. & van Uden N.: <i>Cryptococcus yarrowii</i> sp. nov., a novel yeast species from Portugal	177
Pedraza-Reyes M. & Lopez-Romero E.: Chitinase activity in germinating cells of <i>Mucor rouxii</i>	183
Janssen P.H.: Fermentation of L-tartarate by a newly isolated gram-negative glycolytic bacterium	191
Kilian S.G., van Deemter A., Kock J.L.F. & du Preez J.C.: Occurrence and taxonomic aspects of proton movements coupled to sugar transport in the yeast genus <i>Kluyveromyces</i>	199
Penón F.J., Martínez J., Vives-Rego J. & García-Lara J.: Mortality of marine bacterial strains in seawater	207

Volume 59 No. 4

Mini-review	
Brogden K.A.: Changes in pulmonary surfactant during bacterial pneumonia	215
Articles	
Ribas F., Araujo R., Frias J., Huguet J.M., Ribas F.R. & Lucena F.: Comparison of different media for the identification and quantification of <i>Aeromonas</i> spp. in water	225
Cervantes C.: Bacterial interactions with chromate	229
Camougrand N., Velours G. & Guerin M.: Biochemical studies carried out on different groups of <i>Candida parapsilosis</i> and <i>Candida rhagii</i> strains by comparing some cellular and mitochondrial activities	235
Raemakers-Franken P.C., Brand R.J.M., Kortstee A.J., Van Der Drift C. & Vogels G.D.: Ammonia assimilation and glutamate incorporation in coenzyme F420 derivatives of <i>Methanosarcina barkeri</i>	243
Agterberg M. & Tommassen J.: Outer membrane protein PhoE as a carrier for the exposure of foreign antigenic determinants at the bacterial cell surface	249
West T.P.: Pyrimidine base and ribonucleoside utilization by the <i>Pseudomonas alcaligenes</i> group	263
Mason C.A.: Physiological aspects of growth and recombinant DNA stability in <i>Saccharomyces cerevisiae</i>	269
De Hoog G.S. & Takeo K.: Karyology and the possible function of the dual conidia of <i>Dissosconium</i> (Hyphomycetes)	285
Spaaij F., Weber G., Roeijmans H.J., Van Eijk G.W. & Oberwinkler F.: <i>Fellomyces horovitziae</i> sp. nov., a new basidiomycetous yeast species isolated from a <i>Xenasmatella</i> basidiocarp	293
Instructions to authors	299
Volume contents / Author index	303
